VIN 2017-12

Clean Air Vehicle (CAV) Update

PUBLISHING & ONLINE INFORMATION BRANCH • COMMUNICATION PROGRAMS DIVISION • © 2017 STATE OF CALIFORNIA, DEPARTMENT OF MOTOR VEHICLES. ALL RIGHTS RESERVED.

Effective: Immediately

New Information

In an effort to reduce processing time, dealers are required to submit a separate New Vehicle Dealer Application for Clean Air Vehicle Decals (REG 1000D) form and payment for each clean air decal (CAD) type (white or green) requested.

The REG 1000D has been revised and is now available through first-line service providers.

Procedures

Continue to follow procedures in the VIN 2013-23 Clear Air Vehicle (CAV) Decal Update memo.

Background

Currently, dealers may apply for white and green CADs on the same application by submitting one REG 1000D with one payment. This increases the application processing time, as only one type of CAD can be processed at a time and the single payment must be split between each CAD types. Submitting separate applications and payments for each CAD type will decrease processing time.

The *Vehicle Industry Registration Procedures Manual* will be updated to reflect the new information.

Distribution

Notification that this memo is available online at www.dmv.ca.gov under Publications was made via California DMV's Automated Email Alert System on April 28, 2017.
