

Autonomous Vehicle Industry Memo

AVIM 2026 – 003

Caltrans Commercial Wholesale Web Portal2

Effective: Immediately

Important Details:

Manufacturers are encouraged to access information from Caltrans Commercial Wholesale Web Portal2 (CWWP2). The CWWP2 is designed to provide centralized real-time information related to freeway operations including:

- Real-time California Highway Patrol traffic incident monitoring.
- Up-to-the-minute highway conditions, including traffic delays, closures, and winter weather controls.
- Chain control information and resources.
- Real-time traffic safety and guidance information about planned and unplanned events.
- Links to Caltrans live traffic cameras.
- Lane Closures reports.
- Travel time files for select locations and provides the status of Caltrans' travel time segments located on selected routes within the State Highway Network.

Questions regarding the CWWP2 should be directed to Caltrans HQ [Traveler Information Coordinator](#).
