

FINAL STATEMENT OF REASONS

1) The Update to the Initial Statement of Reasons

The initial statement of reasons failed to identify a non-substantive amendment to subsection (b)(13), formerly (b)(14), that corrected a typo by removing the word ‘in’ and replacing with the word ‘is.’

2) Imposition of Mandate on Local Agencies or School Districts

The department’s regulatory action amending Section 125.02 in Article 2.55, Chapter 1, Division 1, of Title 13, does not impose any mandate on local agencies or school districts and imposes (1) no cost or savings to any state agency, (2) no cost to any local agency or school district that is required to be reimbursed under Part 7 (commencing with Section 17500) of Division 4 of the Government Code, (3) no other discretionary cost or savings to local agencies, and (4) no cost or savings in federal funding to the state. No studies or data were relied upon to make this determination.

3) Summary of Comments Received and Department Response

The proposal was noticed on January 20, 2023, and made available to the public from January 20, 2023 through March 6, 2023. The department received no comments during the 45-day comment period.

4) Determination of Alternatives

The department has determined that no reasonable alternative considered by the department or that has otherwise been identified and brought to the attention of the department would be more effective in carrying out the purpose for which the action is proposed, or would be effective as and less burdensome to affected private persons than the proposed action, or would be more cost-effective to affected private persons and equally effective in implementing the statutory policy or other provisions of law. No comments were received during the 45-day comment period that presented the department with alternatives.

5) Documents Incorporated by Reference

The following document is incorporated by reference in the adopted regulation:

- Application for Certification of Ignition Interlock Device, form DL 9 (Rev. 6/2022)

The form DL 9 is not be published in the California Code of Regulations because it would be impractical and cumbersome to do so as the form has tables; however, the document is readily available to interested parties on the department’s website.
