AUTHORITY AND REFERENCE

The department proposes to adopt these regulations under the authority granted by Vehicle Code sections 1651 and 4450.5, in order to implement Vehicle Code section 4450.5.

INFORMATIVE DIGEST/POLICY STATEMENT OVERVIEW

Vehicle Code section 4450.5 directs the department to develop an Electronic Lien and Title program, in consultation with stakeholders, that would require lienholders' title information be stored electronically, if the department determines that such a program is cost effective compared to its paper system.

In 1989, the department developed its Electronic Lien and Title pilot program and participation was voluntary. General Motors Acceptance Corporation was the first lienholder to join.

Under the Electronic Lien and Title program, when the department receives an application for title or registration showing the lienholder's name, address, and Electronic Lien and Title ID number an electronic lien record is produced, by the department, in lieu of a paper title. A web-based connectivity system was implemented to allow for Secure File Transfer between software vendors/service providers and the department.

Vehicle Code sections 1801 and 1801.1 authorize the department to allow a person to submit any document required to be submitted to the department by using electronic media deemed feasible by the department instead of requiring the actual submittal of the original document. Vehicle Code section 1801.1(c) authorizes the department to, among other things, establish security standards and technological requirements, or terms and conditions, including methods of authentication for electronically submitted signatures.

This proposed action would implement Vehicle Code section 4450.5 and make specific the forms an Electronic Lien and Title Program service provider applicant and lienholder applicant must submit to the department to apply to become a participant. Additionally, this proposed action would specify program administration structure.

ANTICIPATED BENEFITS OF THE PROPOSED REGULATION

This action will benefit the welfare of California residents and worker safety by reducing titling fraud of vehicles.

CONSISTENCY AND COMPATIBILITY WITH STATE REGULATIONS

During the process of developing these regulations, the department conducted a search for similar regulations on the topic of the electronic lien and title program and has concluded that the proposed regulations are neither inconsistent nor incompatible with existing state regulations.

COMPARABLE FEDERAL STATUTES OR REGULATIONS

The department conducted a review of federal regulations related to the electronic lien and title program and has determined that there are no comparable federal regulations.
