RE: Annual Report of Autonomous Mode Disengagements October 2016 – November 2017

Dear Mr. Aoki,

Please let this letter serve as NIO USA, Inc.'s annual report of autonomous mode disengagements from October 2016 through November 2017, in compliance with California Code of Regulations title 13, article 3.7, Section 227.46.

Though NIO is currently permitted to conduct L3, L4, and L5 testing, the development and on-road testing performed by NIO thus far has only been for L2 features. The NIO team is preparing the foundational technologies to ramp up our L4 road testing capabilities, which will begin in the coming months. As such, to date, NIO has performed 0 hours/miles of L4 on-road testing, and therefore, has no autonomous mode disengagements to report.

If you have any questions or require additional information, please do not hesitate to contact me. Thank you, as always, for your time and assistance.

Sincerely,

Paula Kutansky-Brown
