Clean Air Decal Fee Increase/Revised REG 1000

Issue Date: July 1, 2016

New Information
Effective July 1, 2016, the fee for Clean Air Decals (CADs) will increase to $22.

NOTE: The new terminology for an enhanced advanced technology partial zero emission vehicle (EATPZEV) is transitional zero emission vehicle (TZEV).

The Application for Clean Air Vehicle Decals (REG 1000) form has been revised and will be available at [www.dmv.ca.gov](http://www.dmv.ca.gov) by July 1, 2016. The New Vehicle Dealer Application for Clean Air Vehicle Decals (REG 1000D) form is available through first-line service providers in the Business Partner Automation program.

Procedures
Continue to follow procedures in the Vehicle Industry Registration Procedures Manual, Chapter 25 for processing a CAD.

Background
The Department of Motor Vehicles (DMV) administers the CAD program through the issuance of specific decals to applicants with eligible vehicles approved by the Air Resources Board (ARB) for a fee that should be sufficient to cover all costs of running the program. The current decal fee of $8 was insufficient to recoup the costs of administering the CAD program; therefore, a cost increase was necessary.

Distribution
Notification that this memo is available online, at [www.dmv.ca.gov](http://www.dmv.ca.gov) under Publications was made via California DMV’s Automated Email Alert System in June 2016.
