New CDL Testing and CLP Standards

Issue Date: November 17, 2015

New Information
Effective July 8, 2015, several changes were made to the commercial driver license (CDL) testing and commercial learner’s permit (CLP), previously known as commercial instruction permit, to comply with federal regulations (Code of Federal Regulations, Title 49, Part 383).

English Only on Skills Test
The Employer Testing Program (ETP) examiner must conduct all portions of the CDL skills test (vehicle inspection, basic control, and road) in English only. Neither the applicant nor the ETP examiner may communicate in a language other than English during any portion of the skills test. The use of an interpreter is prohibited in the administration of the skills test. Applicants must be able to understand and respond in English to verbal commands and instructions given by the ETP examiner (Code of Federal Regulations, Title 49, §383.133).

ETP examiners are required to inform the applicant of this policy prior to administering the CDL skills test. If an applicant communicates in a language other than English, or fails to comprehend instructions given to him/her in English, issue him/her a verbal warning for the first two offenses committed on the same test date, and note the offense(s) on the ETP CDL PRE-TRIP INSPECTION AND SKILLS EVALUATION SCORE SHEET (DL 65 ETP, PART I) or ETP CDL DRIVING PERFORMANCE EVALUATION SCORE SHEET (DL 65 ETP, PART II). Upon a third offense committed on the same test date, end the test and mark the score sheet as automatic failure (AF) for failing to communicate in English.

**NOTE:** Using slang (not standard English), speaking in broken English, or speaking with an accent should not be misconstrued as communicating in a language other than English.

ETP examiners are encouraged to make every effort to understand what the applicant is saying; however, the applicant and ETP examiners are prohibited from communicating in a language other than English.

Air Brake Test Failures
ETP examiners are required to end the vehicle inspection test and mark the score sheet as an “AF” if the applicant fails the air brakes portion of the test. Do not allow the applicant to continue his/her vehicle inspection test after he/she has failed the air brakes portion of the test.

**NOTE:** The applicant determines the order in which the vehicle inspection test is conducted. ETP examiners are not allowed to dictate the order.
Representative Vehicles

Prior to administering the CDL skills test, an ETP examiner will confirm with the applicant the class license they plan to operate and must verify that the test vehicle is representative of the class of commercial motor vehicle (CMV). This can usually be done by visual inspection or checking the vehicle’s federal certification label or manufacturer’s identification plate to determine the gross vehicle weight rating (GVWR) and/or gross combination weight rating (GCWR) of the vehicle.

**NOTE:** Do not use the vehicle’s actual loaded weight (gross vehicle weight or gross combination weight) as verification. GCWR may be determined by adding the GVWR of the power unit and towed unit.

Commercial class vehicles are defined as follows:

**Class A** vehicles include:
- Any combination of vehicles with a GCWR of 26,001 or more pounds provided the GVWR of the vehicle(s) being towed is more than 10,000 pounds.
- Any combination of vehicles with a GCWR of less than 26,001 pounds if the towed vehicle has a GVWR of more than 10,000 pounds.

**NOTE:** If an applicant performs the skills test in a Class A combination vehicle with a GCWR of less than 26,001 pounds, the CDL will be restricted to the operation of combination vehicles with a GCWR of less than 26,001 pounds (Restriction 88).

**Class B** vehicles include:
- Any single vehicle with a GVWR of 26,001 or more pounds.
- Any 3-axle vehicle weighing more than 6,000 pounds.
- Any bus designed, used, or maintained to transport more than 15 passengers including the driver.
- Any vehicle designed, used, or maintained to transport more than 10 passengers including the driver, for hire or profit, or used by any nonprofit organization or group.
- Any farm labor vehicle designed, used, or maintained to transport more than 10 passengers including the driver.

**NOTE:** If an applicant performs the skills test in a 3-axle Class B vehicle weighing over 6,000 pounds with a GVWR less than 26,001 pounds, the CDL will be restricted to the operation of 3-axle vehicles with a GVWR less than 26,001 pounds (Restriction 79).

A truck tractor (self-propelled CMV designed or used primarily for drawing other vehicles) *Code of Federal Regulations*, Title 49 §390.5, is not considered a representative vehicle and cannot be used for any testing purposes.

**Class C** vehicles include:
- Any single vehicle not included under Class A or B with a GVWR of less than 26,001 pounds used to transport hazardous materials in quantities requiring placarding under the *Hazardous Materials Regulations* (*Code of Federal Regulations*, Title 49, Part 172, Subpart F) or is carrying material listed as a select agent or toxin in *Code of Federal Regulations*, Title 42, Part 73.
Commercial Learner’s Permit (CLP)

The commercial instruction permit has been renamed as the commercial learner’s permit (CLP) to comply with federal regulations. Until programming modifications are complete, the document will still read commercial instruction permit. The CLP:

- Applicant must be at least 18 years of age.
- Will not be issued to an applicant until he/she has obtained a valid California driver license (DL) which, at a minimum, allows the applicant to operate noncommercial Class C motor vehicles. A temporary California DL is acceptable.
- Is only valid when accompanied by the CLP holder’s valid California DL.
- Will be valid for a maximum of 180 days from the date of issuance and may be renewed for up to an additional 180 days, provided the CLP expiration date does not exceed a period of one year from the initial application date.
- Is limited to the following endorsements:
  - Tank (N).
  - Passenger (P).
  - School Bus (S).

**NOTE:** Doubles/Triples (T) and Hazardous Materials (HAZMAT) (H) endorsements are prohibited on a CLP.

- Holder with a CLP containing an “N” endorsement is prohibited from operating a tank vehicle unless the tank is empty.

**NOTE:** A purge certificate is not required for testing purposes.

- Holder with a CLP containing a Passenger “P” endorsement and/or School Bus “S” endorsement is prohibited from operating a CMV with passengers, other than federal/state auditors and inspectors, test examiners, other trainees, and the accompanying CDL holder.
- Holder must wait a minimum of 14 days after initial CLP issuance to be eligible to take the skills test. The 14-day waiting period applies to classification upgrades and endorsement/restriction changes that require a skills test.
- Holder must be accompanied by a CDL holder while operating a CMV. The CDL holder must possess the appropriate class license and endorsements necessary to operate the CMV.
- Holder must surrender his/her CLP and DL to DMV prior to being issued a CDL.
Department of Motor Vehicles (DMV) Manual Changes

DMV will make the following manual changes to the CLP until programming modifications are complete.

1. DMV will attach a CLP label to the bottom portion of page 1 of the CLP as shown below:

2. DMV will draw a line over (blackout) the expiration date on the CLP using a permanent black marker as shown above.

3. If the CLP contains a Doubles/Triples (T) and/or HAZMAT (H) endorsement, DMV will draw a line over (blackout) the T, H, and/or X endorsement(s) on the CLP using a permanent black marker as shown above.

| 70               | X          | Restricted from operating a CMV tank vehicle with cargo (CLP only). |

* Restriction will not be reflected on the DL record. Restriction 50 will be used to capture the restriction(s) until programming modifications are completed.

**NOTE**: Restriction Code **40** is used for CLP/CDL holders who self-certify as Non-Excepted Intrastate (NA) drivers.

**Restriction Code 60** is used if the applicant performs his/her skills test in a Class A combination CMV with the power unit (tractor) and the towed unit (trailer) connected with a pintle hook or other non-fifth wheel connection. A truck tractor towing a gooseneck trailer connected by a fifth wheel will not receive a Restriction “60.”

Adding New Restriction Codes

Until the Certificate of Driving Skill (DL 170 ETP) form is modified to reflect the new restriction codes, examiners must handwrite any applicable restriction(s) on the form (see sample).
Adding New Restriction Codes, continued

CDL Test Materials

Do not give the DL 65 ETP (Part I or Part II) score sheet to the applicant/driver upon completion of the skills test. All score sheets (pass and fail) must be retained by the employer for a minimum of three years.

Background

In accordance with federal regulations, changes were made to the CDL testing process which include prohibiting the use of interpreters during the administration of the skills test, requiring CDL applicants who wish to have an air brake endorsement to successfully demonstrate all air brake tests, and requiring the skills test to be taken in a representative vehicle. Changes were also made to the CLP issuance process which include, limiting the types of endorsements that may be added, length of the time the CLP is valid, and a minimum waiting period before taking the skills test.
